Color Pencil Seminar with Mark Menendez
"Great Blue Heron"

Learn to create one of America's most beautiful birds!

This project is designed to help you create a wildlife portrait in its natural habitat. The skills offered in this packet will teach you to create the bird's features including realistic eyes and feather texture, and a simple technique for rendering sky, water and shore. This fun and easy project will advance the intermediate student essential skills for creating masterful wildlife subjects!

Instructor will provide the pre-patterned paper, reference photo and instructional packet.
