

Jennifer Stone Supply List

Several supplies will be provided. Some will be free, some available for sale. I will also share my stencils and stamps to try. Try not to bring anything more than what is on the list as this workshop requires having as much workspace as possible.

I will provide the Deli Paper used for making the Collage Papers.

Please bring the following:

1. Fluid Acrylics colors of Q nickle Azo gold, Thalo Turquoise Q Crimson and any other colors you like.
OR small bottles of Inexpensive paint and metallic paint at Walmart or Hobby Lobby is fine for this project. Bring several bottles of various colors. Please include the basics of red, yellow and blue in order to mix. **Also include an 8 oz for Carbon Black and Titanium White. These are important to bring!**
2. BOX. See photo of the box that is ideal for this workshop with Class Description on website. It is available at Michael's stores. If you do not find it, try to bring a comparable box. This box needs to be very sturdy, not flimsy or too large. The measurements for the box need to be larger than 13" x 13". If it's too large, it takes up too much space on your table. I do have a few to loan out but not enough for the entire class.
3. Six 4-inch foam rollers. (I will have these available for sale for \$2.50 each if you do not find them. I purchase mine at Menard's or you can go online. *DO NOT* buy long handled fuzzy rollers. I use the plain yellow foam rollers with a short handle)

5. Roll of paper towels
6. Box of pop up Kleenex
7. Any stencils and stamps you have
