

# Watercolor Abstracts Workshop

By

**Sterling Edwards, CSPWC, TWSA, WPA**

That's right; I said abstracts, the big "A" word. Have you ever considered branching out and doing something different? Well, here's your chance. Join renowned artist Sterling Edwards and delve into the world of abstract painting. Contrary to popular belief, it's not as easy as it sounds. This is Sterling's favorite style of painting because it allows him to be totally creative. Most of the time we, as artists, use some form of reference material when we paint. We are either in the field doing plein air painting or in a studio painting from a photograph. In other words, we are copying something that inspires us. Not so with abstract painting. Many refer to abstract painting as the purest form of artistic expression because we are actually creating as opposed to copying. Combine that with the fact that abstract art is fun and extremely popular these days and you've got a winning combination. .

In this workshop you'll learn how to find exciting designs for an abstract painting. You will also learn many of the basics that Sterling uses in his paintings designs such as;

Negative painting

Building a strong composition

Using Expressive colors

Glazing techniques

Specific techniques for building exciting textures

The importance of off register calligraphy to build dimension in your painting

The difference between Representational Abstract and Abstract Expressionism

How to overlap shapes to create drama

And so much more.....

If you're in a rut, tired of copying everyone else, need to rekindle your creativity, need to have some fun, and are ready to go outside of the envelope, then this is your workshop! See for yourself why Sterling's workshops are so popular throughout the U.S. and internationally.
