

Ann Dotzauer

Fused Glass Panel Supply List

Vinyl or plastic tablecloth because we will be nipping a lot and glass goes flying.

Gallon plastic bag (to collect those flying chips of glass!)

An old house paintbrush (for sweeping up those tiny glass scraps)

Elmers CLEAR school glue (Winn Dixie and Publix have it. I have some, but it is nice when we do not have to share. Please put your name on the bottle.)

Cheap hairspray - the cheaper, the better for holding the fine sand-like glass particles in place. (Again, I have some, but when everyone is spraying it is great to have your own. Buy either pump or can hairspray.)

Pen or Sharpie (black) for love notes!  (I have a few to share, but if you have one in your home, bring it.)

A smile - let's have some fun!

I will have all the glass, tools, grinders, and some of the above items.
