

## Betty Waisanen - Radish supply list

Bring your regular watercolor supplies. I will use 3 colors that mix well together: aureolin, alizarin crimson or rambling rose, and June bug or Windsor blue.

- A table cover
- Saran Wrap ...several pieces
- 2 Quarter sheets good paper
- Substrate to tape your paper down and tape.
- A cork or bottle cap for stamping
- Natural sponge
- Salt
- Spray bottle and water bucket
- Try to find a rock to leave at the center so we can dry the paintings outside and they won't blow away.

I will bring the radishes!

The point of this lesson is to practice and get comfortable with negative painting. In addition, when painting from life, we will study shapes and shadows. While our paintings are drying, a simple exercise will be available for practice.

Don't forget your smile 😊 Betty
